## INSTALLATION DETAILS

Installation address  
(if different to the above)

Is there more than one Solar PV installation at this address? Yes  No

If yes, please describe where this system is installed in comparison to previous Solar PV systems at this address  
e.g. 'Upgrade to original installation – new panels west of original set' or 'On roof of granny flat'

Property type? Residential  School  Commercial

Single or multi-storey? Single  Multi

Grid connection type? Grid without battery  Grid with battery  Stand-alone

System mounting type? Building or structure  Ground mounted  Free standing

## SYSTEM DETAILS

Inverter  
 Make  Model No  Serial No

Panels  
 Make  Model No  Rating (W)  No installed

## STC ELIGIBILITY

STC eligibility – number of STCs this system is entitled to  Refer to STC calculator [www.rec\\_registry.gov.au/sguCalculatorInit.shtml](http://www.rec_registry.gov.au/sguCalculatorInit.shtml)

Are you installing a complete unit (additional capacity to an existing system is not considered a complete unit)? Yes  No

For what period will you be assigning your rights to create STCs? One year  Five years  15 years

You may assign STCs annually, in 5 year periods or in a one off 15 year period. To be eligible for the 15 year deeming period the unit must be designed & installed by a person accredited for grid-connected power systems under the Clean Energy Council accreditation scheme.

## CEC INSTALLER DETAILS

I confirm the following: (a) all local and state/territory approvals have been met for i. the siting of the unit; ii. the attachment of the unit, and iii. the grid connection of the unit. (b) the electrical wiring associated with the unit was undertaken by an electrical worker holding an unrestricted license for electrical work issued by the state or Territory for where the unit was installed. (c) I have public liability insurance of at least \$5 million and am bound by the Clean Energy Council's Code of Conduct and have complied with that code of conduct for the installation of the above unit. (d) the installation complies with the following Australian Standards: i. AS/NZS 3000-2007 Electrical Installations (known as the Wiring Rules); ii. AS/NZS 1768-2007 Lightning Protection; iii. AS 4777:2005 Grid Connection of Energy Systems via Inverters; iv. AS/NZS 5033:2012 Installation and safety requirements for Photovoltaic (PV) Arrays, and v. AS/NZS 1170.2:2011 Structural Design Actions - Wind Actions. (e) the installed photovoltaic module above is listed in AS/NZS 5033 as a Compliant PV Module as in force from time to time and available at [www.cleanenergycouncil.org.au](http://www.cleanenergycouncil.org.au). (f) the installed model of grid connect inverter is listed in Tested and Approved Grid Connected Inverters as in force from time to time and available at [www.cleanenergycouncil.org.au](http://www.cleanenergycouncil.org.au).

## OWNER DECLARATION

I hereby declare that:

- The above information is correct and I am the owner of the installation referred to in this form;
- I understand that by signing this form I am assigning the rights to create STCs for the above system to *ICON RETAIL INVESTMENTS LIMITED and AGL ACT RETAIL INVESTMENTS PTY LTD* trading as ActewAGL Retail;
- I have not previously assigned or created STCs for this installation;
- I understand that information on this form will be made available to the Clean Energy Regulator and understand that they have the right to inspect my system within 5 years of the date of this assignment;
- I am aware that penalties can be applied for providing misleading information in this form under the *Renewable Energy (Electricity) Act 2000, and*
- I am the owner of the solar (photovoltaic) system referred to in this assignment form and I confirm that the accredited installer and/or supervisor mentioned above has either: i. physically attended and undertaken the installation themselves or ii. physically attended and supervised the installation by others.
